Circular Memo.No.11/PCB/CFE/ROs & ZOs/2012

Dt.27.04.2012

Sub: PCB- CFE - New stand alone solvent recovery units – Not to accept new applications - Instructions Issued - Reg.

Ref: CFE Committee meeting held on 17.04.2012

With reference to the subject matter mentioned above, the issue of permitting new stand alone solvent recovery units was discussed in detail in the CFE committee meeting held on 17.04.2012.

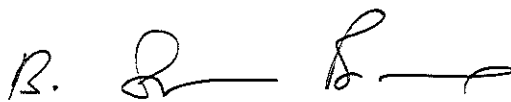

The committee observed that there are about 30 stand alone solvent recovery units existing in the State and the Board is insisting the major bulk drug industries to have their own solvent recovery systems. In view of the above, the committee decided that no further stand alone solvent recovery units shall be permitted and a circular to be issued to all the ROs & ZOs not to accept the CFE applications of stand alone solvent recovery units.

In view of the above, all the ROs and ZOs are hereby directed not to accept applications of new stand alone solvent recovery units.
