The SEIAA agreed to consider the request of the proponent.

<b>Addl. Item: 01</b>	<b>Processing of EC applications by the SEAC pertaining to mining projects (Minor Minerals) forming a cluster - Reg.</b>
-----------------------	--

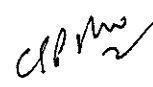

While discussing the EC cases pertaining to mining leases of Minor Minerals, the SEIAA observed that in few cases, more than one mining lease are located either under one Sy. No. or in one village. However, from the recommendations of the SEAC, it is not clear whether these mining leases are forming clusters and are falling within such limit (500 m) as prescribed by the MoEF&CC, GoI, such cases are to be processed duly taking up the Public Hearing. In case the total area of cluster is exceeding 50.0 Ha., it has to be referred to the MoEF&CC, GoI. Hence, the SEAC is requested to examine this aspect of applicability of cluster approach while recommending the cases to the SEIAA.

<b>Addl. Item: 02</b>	<b>Processing of EC applications by the SEAC pertaining to EMP of Construction Projects - Reg.</b>
-----------------------	--

The SEIAA observed that under EMP sometimes the allocation for greenbelt development, rain water harvesting and recycling of treated waste water (which are major component under any EMP) is quite insufficient. Hence, the SEAC is requested to sensitize the Project Proponent / Environmental Consultant accordingly and also ensure that sufficient provision for these components is made in the future projects under EMP.
